SUMMARY

I have over 8 years of experience collectively in full-stack development, system architecture, and project management. Skilled in Python, Java, PHP, JavaScript, and database management, delivering scalable & secure software and web solutions for diverse industries.

RELEVANT EXPERIENCE

IT Project Leader, Gatestone & Co.

Jan 2025 - Present

- Monitored project progress, managed risks, and ensured timely delivery while maintaining documentation and reporting standards.
- Leading end-to-end IT project planning, execution, and delivery across software and infrastructure initiatives.
- Managing internal development teams (developers/contractors/programmers) and coordinating task allocation to ensure efficient project execution.
- Leading Agile/Scrum meetings, sprint planning, and backlog prioritization.
- Reviewing ServiceDesk Plus (SDP) project and change requests, evaluating effort and feasibility, approving valid changes, and assigning tasks to appropriate technical resources in alignment with business needs and priorities.

IT Manager, TripUp

Jan 2023 - Dec 2024

- Led software development projects from planning to deployment using agile and waterfall methodologies.
- Managed end-to-end IT operations including infrastructure, applications, and internal systems.

Web Lead, NSU ACM SC

2019 - 2021

- Developed a member portal for NSU ACM Student Chapter, enhancing club member engagement and communication and implemented social media-like functionalities.
- Designed an interview scheduling system that streamlined the recruitment process for new members.

Full Stack Wordpress Developer, Dhaka Chemicals

2018 - 2020

- Developed a fully functional catalogue website for Dhaka Chemicals using WordPress in a LAMP environment and implemented SEO strategies to ensure top rankings on Google Search.

Software Developer, Liquor Lounge

2017 - 2019

- Developed a Point of Sale (POS) application using VB.NET and Microsoft SQL for efficient sales and inventory management.
-
